

AMENDMENTS TO THE CLAIMS:

1. (Previously Presented) A triazolyl-triazine composition, comprising:
a chemical formula, or salt thereof, of

wherein Rx is selected from -NH₂, -OH, halogen, alkylamino, carboxyalkyl, carboxy, and a sulfonamide moiety, and wherein Ry and Rz, independently, are electron donating groups; and,

an acceptable carrier,

wherein said acceptable carrier is selected from at least one of adjuvants, mixers, and enhancers to benefit application of said chemical formula, or said salt thereof .

2. (Previously Presented) An agricultural composition, comprising:
a chemical formula, or a salt thereof, of

10/781,956

2

wherein R_x is selected from $-NH_2$, $-OH$, halogen, alkylamino, carboxyalkyl, carboxy, and a sulfonamide moiety, and wherein R_y and R_z , independently, are electron donating groups; and,

an agriculturally acceptable carrier,

wherein said agriculturally acceptable carrier is a non-phytotoxic material.

3. (Previously Presented) An agricultural composition, comprising:

a chemical formula, or a salt thereof, of

wherein R_x is selected from $-NH_2$, $-OH$, halogen, alkylamino, carboxyalkyl, carboxy, and a sulfonamide moiety, and

wherein R_y and R_z , independently, are electron donating groups; and,

an agriculturally acceptable carrier,

wherein R_x is $-NH_2$.

4. (Previously Presented) An agricultural composition, comprising:

a chemical formula, or a salt thereof, of

10/781,956

wherein Rx is selected from -NH₂, -OH, halogen, alkylamino, carboxyalkyl, carboxy, and a sulfonamide moiety, and

wherein Ry and Rz, independently, are electron donating groups; and,
an agriculturally acceptable carrier,

wherein Rx is a halogen.

5. (Original) The agricultural composition of claim 4, wherein Rx is Cl.
6. (Previously Presented) The composition of claim 1, wherein Ry and Rz, independently, are electron donating groups selected from a lower alkylamino, di-loweralkylamino, amino, hydroxy, carboxy, aryl, lower alkoxy, lower aralkoxy, aryloxy, mercapto and lower alkylthio.
7. (Previously Presented) The composition of claim 1, wherein Ry and Rz, independently, are electron donating groups selected from -OR, -CR_AR_BR_C, -OCOR, -NR_AR_B, -SR, wherein R and R_A, R_B and R_C are independently selected from an alkyl group and H.
8. (Previously Presented) The composition of claim 7, wherein R is a C₁ to C₆ alkyl moiety.
9. (Previously Presented) The composition of claim 7, wherein R is a C₁ to C₄ alkyl moiety.

10. (Previously Presented) The composition of claim 7, wherein R is a C₁ to C₃ alkyl moiety.
11. (Previously Presented) The composition of claim 7, wherein R is a C₁ alkyl moiety.
12. (Previously Presented) The composition of claim 7, wherein R and R_A, R_B and R_C, independently, are selected from H, -CH₃, -CH₂CH₃, -CH(CH₃)₂ and -CH(CH₂CH₃)₂.
13. (Previously Presented) The agricultural composition of claim 3, wherein R_y and R_z, independently, are selected from -NH₂, -CH₃, -OCH₃, -NHCH₃, -N(CH₃)₂, -N(CH₃)(CH₂CH₃), -N(CH₂CH₃)₂, -NH(CH₂CH₃) and -NH(CH(CH₃)₂).
14. (Currently Amended) A process for producing an agricultural composition, comprising:
- forming an agricultural composition comprising a chemical formula, or salt thereof,

wherein Rx is a substituent selected from one of -NH₂, -OH, halogen, alkylamino, carboxyalkyl, carboxy, and a sulfonamide moiety, and wherein Ry and Rz, independently, are electron donating groups; and,

adding an agriculturally acceptable carrier thereto,

wherein said agriculturally acceptable carrier is a non-phytotoxic material.

15. (Currently Amended) The process of claim 14, ~~further comprising~~ wherein said forming comprises replacing Rx with a selecting said substituent prior to said adding the agriculturally acceptable carrier; and selecting said substituent from one of -OH, halogen, alkylamino, carboxyalkyl, carboxy, and a sulfonamide moiety.

16. (Canceled)

17. (Currently Amended) The process of claim ~~15~~ 14, ~~further comprising selecting~~ wherein the substituent is selected from COOEt, and -OH.

18. (Currently Amended) The process of claim ~~15~~ 14, wherein said substituent is a said sulfonamide substituent moiety.

19. (Previously Presented) The composition according to claim 1, wherein an effective amount of said chemical formula and said acceptable carrier are formulated for application to an agricultural product.

20. (Previously Amended) The composition of claim 19, wherein said chemical formula and said acceptable carrier are a treatment composition, said treatment composition is at least one of an insecticidal, fungicidal and herbicidal treatment.

21. (Previously Presented) A triazolyl-triazine composition, comprising:
a chemical formula, or salt thereof, represented by a structure of

wherein R_x , R_y , and R_z are each a $-NH_2$ moiety; and,
an acceptable carrier,
wherein said acceptable carrier is selected from at least one of adjuvants, mixers, and enhancers to benefit application of said chemical formula, or said salt thereof.
